Production Highlights

Doctors of War – 90min Feature Documentary – 2021 – Channel 5

Feature length documentary following UK surgeon John Buckels and a team of international and local medics as they battle to save the lives of people caught up in a major humanitarian disaster in war-ravaged South Sudan. This raw and visceral film offers a snapshot of life inside one of the world's largest refugee camps, and the often brutal and unforgiving conditions of a country torn apart by ten years of conflict.

Michael Palin in North Korea – Ep 1&2 – ITN Prods – 2018 – Channel 5

Michael Palin takes his 'most enlightening journey of my life' into the alien world of North Korea. From the chaos of China, Palin finds an easy calm in North Korea, too calm, with a world of roads without cars, no adverts and propaganda everywhere. But soon tension changes to intrigue, fun and a connection with his ever present guides. This amazing landmark programme for Channel 5 drew in huge figures for the usual 900k viewers 9pm slot and rocketed to 2.8 Million - The highest rating show for C5 in 6 years.

I AM A KILLER – -Editor /Edit Producer – 2018 – NETFLIX – World Release

Documentary Crime Series with exclusive interviews with Killers on death row. Each episode explores their explanations through other witnesses with conflicting views before returning to the inmate for their 2nd chance to shed light on the events that led them to be incarcerated.

The Extraordinary Case of Alex Lewis – Feature Documentary – 2016 – Channel Four

Alex Lewis was living an ordinary life when one day he started to feel ill with cold like symptoms. A few days later Alex was given just a 3% chance of survival. Doctors had no choice but to amputate his arms legs and also Alex lost part of his face to the Strep A infection. The documentary follows Alex as he tries to re-establish himself as a husband and a father to a 3 year old, despite having difficulties with family life before he got ill. A documentary described by Controller of Channel 4 Jay Hunt as 'Astonishing'

Harry and Meghan an African Journey (Ep 1) – 2019 – ITV

Tom Bradby follows the Royal couple around Africa and gets exclusive interviews, both separately and together. In the final days Harry and Meghan decide to sue the press and Tom is there to interview a fragile and open Meghan just hours after the news breaks. Edited in just 7 days in a sealed edit suite, this documentary became no. 1 trending on twitter and knocked brexit off the BBC news top headline for two nights running.

The Island with Bear Grylls – Series 1 & 2 – 2014/5 – Channel 4

Adventurer Bear Grylls has abandoned 13 British men on a Pacific Island in a bid to find out whether they have what it takes to survive. My role was unique as I was consultant on how technically to layout the project, I was on location to sift through the hours of footage and find stories, back in London I edited the series pretitles and then edited the final episode. Series 2 – Women's Island Ep 2 Highest rating ever for the Series. *WINNER* 2015 BAFTA* *WINNER* 2015 RTS NATIONAL AWARD* Best Popular Factual and Features
